DETAILED ACTION

- Response to the applicant's amendment dated 11/02/2006
- Claim 9 cancelled
- Amended claims 1-8 and 10-14 have been submitted for examination
- Amended claims 1-8 and 10-14 have been allowed

Response to Arguments

4. Applicant's arguments and amended claim 8 and canceled claim 9 filed 11/02/2006, with respect claims 1 and 8 to have been fully considered and are persuasive. Claims 1 and 8 rejections under section 35 USC § 102(b) of the office action filed on 11/02/2006 has been withdrawn.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

5. The prior Art of record and in particular Eisele et al. US patent no. 6,034,905 and Constantinescu US publication no. 2004/0252644 teaches:
- A method for implementing a redundancy enhanced differential signal interface comprising the steps of:
 - providing a differential signaling input/output (I/O) pair connected to a differential receiver interface;
 - detecting an error from said differential receiver interface;
 - alternately testing of true and complement sides of said differential signaling I/O pair;

However, the prior art do not teach, suggest, or otherwise render obvious the additional limitations as in claims 1 or 8 of the instant application:

- responsive to said detected error, reducing an interface operating speed of said differential receiver interface;
- responsive to detecting a failure of a true side or a complement side, setting the detected failed true side or complement side to a reference voltage and maintaining said reduced interface operating speed of said differential receiver interface.

6. Claims 2-7 depend from claim 1.
7. Claims 10-14 depend from claim 8

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
